

Adults

Learn to Quilt!

Dust off that sewing machine and I will show you how to start and complete a quilt in 10 meetings (with a little homework, of course.) You will become familiar with quilting vocabulary, the latest quilting tools, and many of the beginning quilting skills. Hopefully, you will get hooked on the art and craft of quilting as well as the people you will meet in class.

Beginners are always welcome, and I offer more challenging quilting projects for more adventurous students. Those who have U.F.O.'s (**U**nfinished **O**bjects), should bring them in so I can help you make the decisions and gain the skills to finish them. We will all learn from these exercises.

Below is a listing of class locations, times, and costs as of January 2024. Since this information could change, I suggest you either email or call me to get up-to-date information.

Please feel free to call me today for more information.
